

## AERA-slicer™

The AERA-slicer is used on all types of turf for slicing and compaction relief.

- Blade (working depth) 4-1/4 inches.
- The blades are powered in an elliptical looping motion to help blade penetration and a faster ground speed.
- Used on tees, fairways and all sports turf applications.
- Cuts stolons and rhizomes to help strengthen turf and promote growth.
- Swing-hitch allows easy turns while in use.
- Used with or without a seedbox for fast, no mess aerification and stress relief in hot summer months.

Widths: 40, 60 and 80 inches
