

Aera-vation Versus Pulling Plugs. **THERE'S A CLEAR WINNER.**

The First Products Aera-vator delivers outrageous aerification results.

- ✓ Solid vibrating tines loosen and break up hard compacted soils.
- ✓ Better subsurface aerification due to lateral and vertical fracture.
- ✓ NO cores or plugs to clean up.
- ✓ Total fracture of ground allows better water, fertilizer and oxygen infiltration.

Here's what our fans have to say:

“Our clients are the envy of the neighborhood. By the time our competitors wait for conditions to be perfect, our clients have lush, healthy green lawns.”

Brent Vanhoy.

Holly Springs Landscaping

“There is no comparison to the standard core aeration method of overseeding.”

Mike Hall,

Green Scapes Shrub and Turf

“Several years ago we discovered a tool that has proven to be the best at establishing healthy stands of grass hands down- The AERA-vator™.”

Grant Miller,

Millers Lawn and Landscape Service Inc.
